DESCRIPTION

Nestable table by Jasper Morrison, a renowned British industrial designer known for his minimalist and functional approach. A graduate of the Royal College of Art in London, he has collaborated with many major companies, including Vitra, Alessi, and Cappellini.

The Nestable side table, edited by Vitra around 2000, perfectly illustrates his design approach. This model is height-adjustable and tiltable, offering maximum flexibility of use. The U-shaped base in chrome-plated metal ensures

stability and modernity, while the mustard-colored polyurethane top adds a touch of vibrancy.
